

MANUFACTURER'S GUARANTEE

The Be!Board magnetic glass boards undergo rigorous quality control. We therefore provide a voluntary manufacturer's guarantee on the quality and functionality of the boards. In the case of defects arising from a fault in the material or manufacturing process, we will replace or exchange the product free of charge.

The following conditions apply in the case of a guarantee claim:

Terms of guarantee:

1. The period of guarantee is 7 years, starting on the date of purchase.
2. The guarantee applies throughout the European Union and Switzerland. For guarantee claims outside the EU and Switzerland, please contact the retailer from whom the product was purchased.
3. The guarantee does not apply in cases of misuse, negligence, incorrect use or other uses of the product that do not follow the enclosed instructions for use.
4. The guarantee can only be honoured if the customer provides the original proof of purchase, which states the date of purchase and product description. The customer must also return the defective product. Sigel is at liberty to exchange the defective product for a new one, or to reimburse the sales price.
5. The customer's statutory rights are not affected.

Manufacturer / Guarantor:

Sigel GmbH
Bäumenheimer Straße 10
86690 Mertingen
